### Chronograph Procedure

- 3 rounds at a distance of 10 feet using a gun of MAXIMUM barrel length for the DIVISION of the same gun type.
- If two (2) of the three (3) rounds exceed the power floor, the competitor is in compliance.
- Prior to each shot, the muzzle of the gun should be elevated to move the powder charge to the rear of the case.
- Should the competitor's ammunition fail to meet the power floor, the competitor will have the option to chronograph three (3) additional rounds through his gun.

Power Factor = bullet weight x muzzle velocity

SSP - 125,000

ESP - 125,000

CDP - 165,000

ESR - 165,000

SSR - 125,000
